

# Best In Maternity Nursing Intimates and Shapewear

## UNCOMPROMISING SUPPORT

*ROCK THAT BUMP WITH MATERNITY WEAR FROM SUPERWOMAN, WHICH ENSURES YOUR LOOKS DEPARTMENT STAYS IN ORDER.*

All mothers love to look and feel fabulous, even after pregnancy, and fashion begins with maternity shapewear. SUPERWOMAN has been the purveyor of award-winning shapewear known for their comfort and luxury, and their new Prêt-à-Pregger range provides stylish mummies with the maternity essentials they need for each stage of their pregnancy journey from pre- to post-pregnancy.

Sturdy yet comfortable, the bestselling High Waist Pants is an all-in-one solution for the shaping needs of the post-pregnancy body. The Luxe-Comfy™ fabric used is knitted to give the desired amount of grip and freedom of movement, targeting the problematic areas of tummy, hip and rear at one go by burning calories and providing support—in other words, the most holistic back-to-work and after confinement shapewear.

The bras from the range are also thoughtfully designed to be worn over long hours without compromising on comfort and support. The Pro Feed Nursing Bra offers convenience when breastfeeding and grows with you up to three cup sizes. Besides being seamless, it also comes with double layered slots to allow you to wear it with or without foam slots. Multi-tasking milk mamas will like the Hands Free Pump Bra, with its hands-free design allowing you to text and eat freely while pumping. The Tummy Tucker Belt is also a popular choice among new mums looking to shape up. With four rows of adjustable hooks, this post-natal belly binder delivers effective waist training and shaping.

\$15 - \$59. Available at all outlets of Mothercare, Tom & Stefanie, Watsons, and SUPERWOMAN's official online store.
